

GENERAL DESCRIPTION

KYOCERA AVX Interconnect continues to develop unique connectors to fill the gap in the market. An addition to KYOCERA AVX's broadening line of one piece card edge connectors is the 4p-12p dual row top entry version 9159-650, which is an extension of our popular single row version 9159-550. This new configuration with staggered dual row contacts will allow doubled number of positions in similar size of the connector. Available in both without and with polarization where the mating PCB layout is modified to form a key, to avoid wrong insertion to the connector.

This small connector is packed with several key features that provide significant functionality in a broad range of applications. The proven contact system is gold plated for enhanced reliability, signal integrity and up to 2A/contact current rating. The connector is designed for mating PCB board with 1.6mm thickness and gold plated pads.

APPLICATIONS Provides a one piece connector solution for perpendicular PCB mating in applications: • Automotive & Transportation • Industrial • Lighting Product Specification: Refer to 201-01-226 Application Notes: Refer to 201-01-227	 FEATURES AND BENEFITS Up to 2 Amps per contact current rating meets robust application requirements Doubled number of positions with dual row solution Optional kapton tape version supports pick and place robotic placement and SMT termination Available version with polarization where the mating PCB layout is modified to form a key, to avoid error during insertion Gold plated BeCu contact system for high reliability in harsh environments Halogen-Free 	
ELECTRICAL	ENVIRONMENTAL	MECHANICAL
Current Rating: See Table Below	Operating Temperature:	Insulator Material: High temperature Nylon

- · Voltage Rating: 300 VAC (RMS) or DC Equivalent
- -40°C to +125°C
- Storage Temperature: -40°C to +60°C
- UL94V-0 rated
- Contact Material: Beryllium Copper
- · Plating: Gold / Tin over Nickel
- · Durability: 10 Cycles
