

BLU202A (Blue 20x2 VFD Filter)

This filter will allow a VFD to be used in brighter environments where normally it would be washed out by light. Featuring 3M adhesive, the filter can be permanently attached to the display. This filter can be used with the VK202-25, VK202-25-USB, MOS-AV202A or the MOP-AV202A series displays.

- Blue filter, will turn text blue on a dark blue background

THIS IS A NEW VFD FILTER SIZE THAT WILL ONLY FIT THE NEWEST 20X2 VFD SIZE AS OF AUG 2015. WILL NOT FIT OLDER MODELS.
