

## Reference Module

The Square SE series utilizes Seoul's high performing 3030 LEDs to deliver efficacies up to 190 Lm/W at typical driving currents. This solution features uniformity of light and color and enables easy installation with a Zhaga compatible mounting pattern.

### Applications:

### Features:

- High efficacy, long life
- Optimized for the Book 7 of ZHAGA standard
- 3 SDCM
- ROHS Compliant

### Key Applications:

- Street light
- Tunnel light
- Parking light

### Product Selection: SMJD-4833064G-XXN1 $I_F = 700\text{mA}$ , $T_c = 25^\circ\text{C}$

| CCT  | CRI | Flux |      | Dimension    | Order Code                     |

**Notes:**

- 1 Above data tested with constant typical current at  $T_c = 25^\circ\text{C}$ .
- 2  $\Phi_v$  is the total luminous flux output measured with an integrated sphere.
- 3 Correlated Color Temperature is derived from the CIE 1931 Chromaticity diagram.
- 4 To use the module properly, recommend to drive the module by a Constant Current Source (CCS). But the Maximum output voltage of the CCS should be limited by referring this sheet.

**Absolute Maximum Operating Specification:  $T_c = 25^\circ\text{C}$**

**Notes:**

- QR coded information shall include the fields described in the table above.
- Minimum size of QR code shall be 4.5 mm x 4.5 mm and a minimum QR code grade of 'C'.  
\*\*'A' grading is preferred.
- If the component is small to have a full label, it is acceptable to have only the QR code in minimum size of 6 mm by 6 mm printed on a label.
- QR Code Example: \*\*\*\*\*190425G02E038ALL11100001

|                          | SEOL SEMICONDUCTOR CO.,LTD.                       |

**Notes:**

- This is customer's PO Number
- Please refer to SPEC page 9 (30 digit code)
- Please refer to SPEC page 10
- Country of Origin: 2 digit code . For example : Chinese Code: CN
- Date Code : YYYYWW : Packing Date: Year + Week
- Lot Code :  
Initial of manufacture is refer to the 2D code rule.  
YYMDD : Packing Date (Oct. : A, Nov. : B, Dec. : C)  
X : Initial of Manufacturer  
XXXX : Sealing Pack No.  
XXXXXXXX : SSC SAP Code
- It is attached to the top left corner of the box.

| <b>SEOL SEMICONDUCTOR CO.,LTD.</b>  |

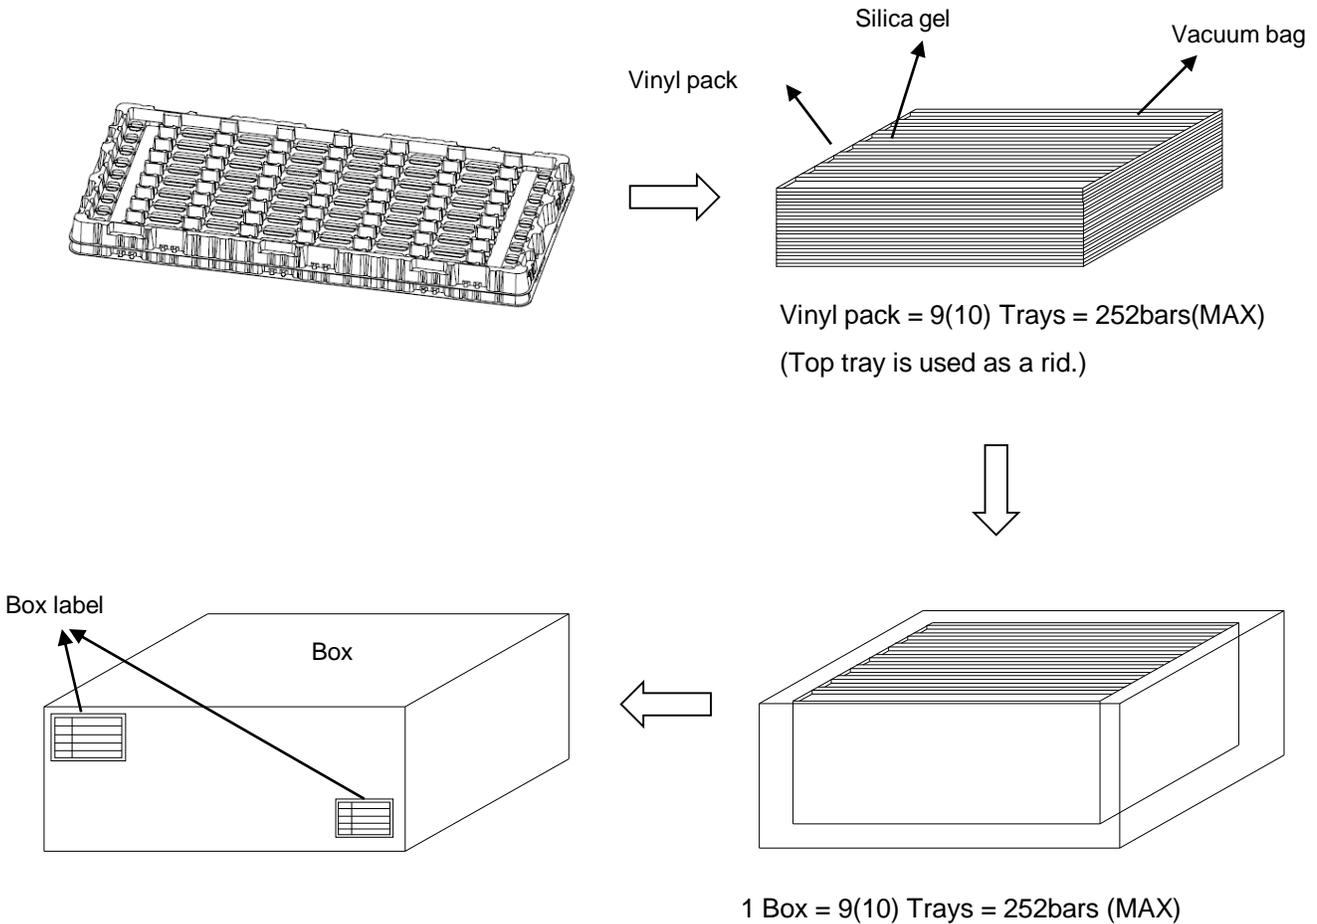

**Notes:**

- Attached to the bottom right corner of the carton box.

## Packaging Specification

| Model              | Tray           |                    | Box             |                   | Pallet      |                      |
|--------------------|----------------|--------------------|-----------------|-------------------|-------------|----------------------|
|                    | Size (mm)      | Q'ty per tray (ea) | Size (mm)       | Q'ty per box (ea) | Size (mm)   | Q'ty per pallet (ea) |
| SMJD-4833064G-XXN1 | 550 x 500 x 24 | 28                 | 570 x 520 x 228 | 252               | 1200 x 1100 | 5040                 |

Note:  
 1box=9trays(+1 dummy)=252ea  
 1pallet=20box(4box\*5layer=20box)=5040ea

## Revision History

| Revision | Date       | Page | Remarks                          |
|----------|------------|------|----------------------------------|
| Rev0.1   | 2019-11-15 | All  | Preliminary data sheet           |
| Rev0.2   | 2019-12-02 | 1-2  | Update the minimum flux value    |
| Rev0.3   | 2019-12-10 | 12   | Update the packaging information |
|          |            |      |                                  |

## Storage before use

1. When storing devices for a long period of time before usage, please following these guidelines.
  - The devices should be stored in the anti-static bag that it was shipped in from Seoul-Semiconductor with opening
  - If the anti-static bag has been opened, re-seal preventing air and moisture from being present in the bag.

# SEOUL SEMICONDUCTOR

## Company Information

Seoul Semiconductor (SeoulSemicon.com) manufactures and packages a wide selection of light emitting diodes (LEDs) for the automotive, general illumination/lighting, appliance, signage and back lighting markets. The company is the world's fifth largest LED supplier, holding more than 10,000 patents globally, while offering a wide range of LED technology and production capacity in areas such as "nPola", deep UV LEDs, "Acrich", the world's first commercially produced AC LED, and "Acrich MJT - Multi-Junction Technology", a proprietary family of high-voltage LEDs. The company's broad product portfolio includes a wide array of package and device choices such as Acrich, high-brightness LEDs, mid-power LEDs, side-view LEDs, through-hole type LED lamps, custom displays, and sensors. The company is vertically integrated from epitaxial growth and chip manufacture in its fully owned subsidiary, Seoul Viosys, through packaged LEDs and LED modules in three Seoul Semiconductor manufacturing facilities. Seoul Viosys also manufactures a wide range of unique deep-UV wavelength devices.
