Supports for QUICK CHARGE QC3.0 technology providing a regulated 3.8V to 12V 2.4 Amp power supply. QUICK CHARGE v3 technology allows certain devices to negotiate with the charging block to optimize the charging voltage and amperage reducing the charge time for such support device from 6 hours to less than 60 minutes. A QUICK-CHARGE cable is needed to make full use of QC3.0 technology. A standard (USB 2.0 or USB 3.0) USB to Type-C cable can still be used, but may not offer the same charging speeds.

Specifications

- 1 USB 3.0 charge port
- USB Output Type A - 3.8V-6.5V/3A, 6.5V-9V/2A, 9V-12V/1.5A modes
- USB 2.0 or USB 3.0 Type-A connector provided. Supports EITHER USB 2.0 or USB 3.0.
- Ideal for newer smart phones that support QUICK CHARGE technology
- Hinged 110v outlet prongs
- Green LED light charge indicator
- CE Listed
- Color: Black

Tech Note: A QUICKCHARGE (QC) v3.0 USB Type A cable must be used for optimal performance
