## **SIEMENS**

Data sheet US2:22CUC320F

Reversing motor starter, Size 0, Three phase full voltage, Solid-state overload relay, OLR amp range 3-12A, 110V 50Hz / 120V 60Hz coil, Non-combination type, Enclosure type 12, Dust/drip proof for indoors, Standard width enclosure

| product brand name  | Class 22                             |
|---|--------------------------------------|
| design of the product   | Full-voltage reversing motor starter |
| special product feature   | ESP200 overload relay                |
| General technical data  |                                      |
| weight [lb]   | 17 lb                                |
| Height x Width x Depth [in]   | 13 × 13 × 5 in                       |
| touch protection against electrical shock                               | NA for enclosed products             |
| installation altitude [ft] at height above sea level maximum            | 6560 ft                              |
| ambient temperature [°F]  |                                      |
| <ul> <li>during storage</li> </ul>                                      | -22 +149 °F                          |
| during operation  | -4 +104 °F                           |
| ambient temperature   |                                      |
| <ul> <li>during storage</li> </ul>                                      | -30 +65 °C                           |
| during operation  | -20 +40 °C                           |
| country of origin   | USA                                  |
| Horsepower ratings  |                                      |
| yielded mechanical performance [hp] for 3-phase AC motor                |                                      |
| <ul><li>at 200/208 V rated value</li></ul>                              | 2 hp                                 |
| • at 220/230 V rated value  | 2 hp                                 |
| • at 460/480 V rated value  | 5 hp                                 |
| • at 575/600 V rated value  | 5 hp                                 |
| Contactor   |                                      |
| size of contactor   | NEMA controller size 0               |
| number of NO contacts for main contacts                                 | 3                                    |
| operating voltage for main current circuit at AC at 60 Hz maximum       | 600 V                                |
| operational current at AC at 600 V rated value                          | 18 A                                 |
| mechanical service life (operating cycles) of the main contacts typical | 10000000                             |
| Auxiliary contact   |                                      |
| number of NC contacts at contactor for auxiliary contacts               | 0                                    |
| number of NO contacts at contactor for auxiliary contacts               | 1                                    |
| number of total auxiliary contacts maximum                              | 8                                    |
| contact rating of auxiliary contacts of contactor according to UL       | 10A@600VAC (A600), 5A@600VDC (P600)  |
| Coil  |                                      |
| type of voltage of the control supply voltage                           | AC                                   |
| control supply voltage  |                                      |
| <ul> <li>at AC at 50 Hz rated value</li> </ul>                          | 110 V                                |
| at AC at 60 Hz rated value  | 120 V                                |
| holding power at AC minimum   | 8.6 W                                |
| apparent pick-up power of magnet coil at AC                             | 218 VA                               |

| apparent holding power of magnet coil at AC   | 25 VA   |
|---|---|
| operating range factor control supply voltage rated value of  | 0.85 1.1  |
| magnet coil   | 0.00 1.1  |
| percental drop-out voltage of magnet coil related to the input voltage  | 50 %  |
| ON-delay time   | 19 29 ms  |
| OFF-delay time  | 10 24 ms  |
| Overload relay  |   |
| product function  |   |
| <ul> <li>overload protection</li> </ul>   | Yes   |
| phase failure detection   | Yes   |
| asymmetry detection   | Yes   |
| ground fault detection  | Yes   |
| • test function   | Yes   |
| external reset  | Yes   |
| reset function  | Manual, automatic and remote  |
| trip class  | CLASS 5 / 10 / 20 (factory set) / 30  |
| adjustable current response value current of the current-<br>dependent overload release   | 3 12 A  |
| make time with automatic start after power failure maximum  | 3 s   |
| relative repeat accuracy  | 1 %   |
| product feature protective coating on printed-circuit board   | Yes   |
| number of NC contacts of auxiliary contacts of overload relay   | 1   |
| number of NO contacts of auxiliary contacts of overload relay   | 1   |
| operational current of auxiliary contacts of overload relay   | 5.0   |
| <ul><li>at AC at 600 V</li><li>at DC at 250 V</li></ul>   | 5 A<br>1 A  |
| contact rating of auxiliary contacts of overload relay according to   | 5A@600VAC (B600), 1A@250VDC (R300)  |
| UL  | 0.160000 NO (D000), ING2000 DO (NO00)   |
| insulation voltage (Ui)   |   |
