## SIEMENS

## Data sheet

## US2:22LPU32BL

Reversing motor starter, Size 5, Three phase full voltage, Solid-state overload relay, OLR amp range 55-250A, 240-277V 50-60Hz/DC coil, Non-combination type, Enclosure type 1, Indoor general purpose use, Standard width enclosure

| product brand name  | Class 22                              |
|---|---------------------------------------|
| design of the product   | Full-voltage reversing motor starter  |
| General technical data  |                                       |
| weight [lb]   | 134 lb                                |
| Height x Width x Depth [in]   | 40 × 20 × 11 in                       |
| touch protection against electrical shock                               | NA for enclosed products              |
| installation altitude [ft] at height above sea level maximum            | 6560 ft                               |
| ambient temperature [°F]  |                                       |
| <ul> <li>during storage</li> </ul>                                      | -22 +149 °F                           |
| <ul> <li>during operation</li> </ul>                                    | -4 +104 °F                            |
| ambient temperature   |                                       |
| during storage  | -30 +65 °C                            |
| <ul> <li>during operation</li> </ul>                                    | -20 +40 °C                            |
| country of origin   | USA                                   |
| Horsepower ratings  |                                       |
| yielded mechanical performance [hp] for 3-phase AC motor                |                                       |
| • at 200/208 V rated value  | 75 hp                                 |
| • at 220/230 V rated value  | 100 hp                                |
| • at 460/480 V rated value  | 200 hp                                |
| • at 575/600 V rated value  | 200 hp                                |
| Contactor   |                                       |
| size of contactor   | NEMA controller size 5                |
| number of NO contacts for main contacts                                 | 3                                     |
| operating voltage for main current circuit at AC at 60 Hz maximum       | 600 V                                 |
| operational current at AC at 600 V rated value                          | 270 A                                 |
| mechanical service life (operating cycles) of the main contacts typical | 1000000                               |
| Auxiliary contact   |                                       |
| number of NC contacts at contactor for auxiliary contacts               | 2                                     |
| number of NO contacts at contactor for auxiliary contacts               | 2                                     |
| number of total auxiliary contacts maximum                              | 8                                     |
| contact rating of auxiliary contacts of contactor according to UL       | 10A@240VAC (A300), 2.5A@250VDC (Q300) |
| Coil  |                                       |
| type of voltage of the control supply voltage                           | AC/DC                                 |
| control supply voltage  |                                       |
| • at DC rated value   | 240 277 V                             |
| • at AC at 50 Hz rated value  | 240 277 V                             |
| • at AC at 60 Hz rated value  | 240 277 V                             |
| holding power at AC minimum   | 7.4 W                                 |
| apparent pick-up power of magnet coil at AC                             | 590 VA                                |

| opportant holding natures of magnet apillat AC  | 6.7 VA  |
|---|---|
| apparent holding power of magnet coil at AC   |   |
| operating range factor control supply voltage rated value of<br>magnet coil   | 0.85 1.1  |
| percental drop-out voltage of magnet coil related to the input voltage  | 60 %  |
| ON-delay time   | 30 95 ms  |
| OFF-delay time  | 40 80 ms  |
| Overload relay  |   |
| product function  |   |
| <ul> <li>overload protection</li> </ul>   | Yes   |
| phase failure detection   | Yes   |
| asymmetry detection   | Yes   |
| <ul> <li>ground fault detection</li> </ul>  | No  |
| test function   | Yes   |
| external reset  | Yes   |
| reset function  | Manual and automatic  |
| trip class  | CLASS 20  |
| adjustable current response value current of the current-<br>dependent overload release   | 55 250 A  |
| product feature protective coating on printed-circuit board   | No  |
| number of NC contacts of auxiliary contacts of overload relay   | 1   |
| number of NO contacts of auxiliary contacts of overload relay   | 1   |
| operational current of auxiliary contacts of overload relay   |   |
| • at AC at 600 V  | 5 A   |
| • at DC at 250 V  | 1 A   |
| contact rating of auxiliary contacts of overload relay according to UL  | 5A@600VAC (B600), 1A@250VDC (R300)  |
| insulation voltage (Ui)   |   |
| <ul> <li>with single-phase operation at AC rated value</li> </ul>   | 600 V   |
| <ul> <li>with multi-phase operation at AC rated value</li> </ul>  | 300 V   |
| Enclosure   |   |
