

EAN:	4013288226396	Size:	155x130x55 mm
Part number:	05059303001	Weight:	524 g
Article number:	Kraftform Kompakt 60 Tool Finder	Country of origin:	CZ
		Customs tariff number:	82079030

- Quick-release chuck with Rapidaptor technology
- Multi-component Kraftform handle of the bit holder for fast and ergonomic screwdriving
- Hexagonal anti-roll feature against rolling away
- "Take it easy" tool finder: colour coding according to profile and size
- Hex-Plus allows socket head screws to live longer
- Suitable for docking with the Wera 2go system

Folding pouch with 89 mm long bits. Including 816 R Kraftform bitholding screwdriver with Rapidaptor quick-release chuck and multi-component Kraftform handle for fatigue-free working. Hard handle zones for high working speeds, while soft handle zones guarantee a high torque transfer. Profile and size of the bits are easily recognized thanks to the Wera Take it easy tool finder with its colour codes and labels. Suitable for manual and machine operated couplings. 17-piece set.

Handle/interchangeable blade system

The Kraftform Kompakt 60 Tool finder bit set with 89 mm long colour-coded Take it easy bits.

The handle/interchangeable blade system allows rapid exchange of the blades required for a wide range of applications.

"Take it easy" tool finder

"Take it easy" tool finder with colour coding according to profiles and size stamp - for simple and rapid accessing of the required tool.

Chuck-all

The Rapidaptor quick-release chucks hold 1/4" DIN ISO 1173-C 6,3 and E 6,3 as well as Wera series 1 and 4 bits.

Rapid-in and self-lock

The bit can be pushed into the adaptor without moving the sleeve. The lock is activated automatically as soon as the bit is applied to the screw. Bits are held securely and wobble-free.

Rapid-out

Simply push the sleeve forward to change the bit. The spring mechanism lifts the bit off the magnet and unlocks the tool. The bit can be easily removed. The rapid-out function makes it easy to remove even the smallest bits without extra tools.

Hex-Plus

Hexagon screws can endure a problem because the contact surfaces delivering the power from the conventional tool, is transferred to the screw via very small surface areas. The consequence: the screw can become damaged (rounding out). Hex-Plus tools have a greater contact surface that prevents this from happening! At the same time, as much as 20 % more torque can be applied. Good to know: Hex-Plus tools fit into every standard hexagon socket screw!

Prevents hand injuries

The outstanding design of the Kraftform handle that fits perfectly into the hand prevents hand injuries such as blisters and calluses.
