

**500ft CAT 6A Stranded & Shielded (F/FTP) CMR Riser Ethernet (26AWG) Cable-
Blue
TR4-575BL-500**

Micro Connectors' Bulk CAT6A Shielded Cable comes conveniently packaged in a wooden spool, providing you with 500 feet of high quality, shielded, 4-pair, stranded, 500 MHz Cat6A Cable, ready for termination and routing.

Simply pull the length required for your installation straight from the wooden spool and terminate at your leisure.

These wooden spools are a great aid in large scale network installations and other long distance cable runs.

And like all of our bulk networking cables, these are constructed with only high-quality components that can be counted on for high performance.

Features:

- TAA Compliant.
- Overall aluminum foil shielding (F/FTP) CMR In-Wall Riser Rated Category 6A Ethernet cable.
- Shielded cables designed to prevent EMI Interference and ensuring best signal possible.
- 26AWG (American wire gauge) individual stranded pure copper conductors for permanent installation.
- Full 10 Gigabit network speed at 500 MHz performance.
- Ideal for PoE and VoIP applications where data loss is audibly and visually seen and heard.
- Meets ANSI/TIA-568-C specifications.
- RoHS compliant.

Specifications/Contents:

Model: TR4-575BL-500

Color: Blue

Length: 500 ft

Weight: 19 lbs

Outer Diameter: 7.0mm

UPC: 715860039519

without us, you are just not connected! ■
