<b>TR4-9C24G-500</b>	<b>500FT</b>

These 24AWG (American Wire Gauge) 9 bare copper conductor RS-232 multiconductor cables are used to create serial patch cables for a wide variety of applications, usually for computer peripherals.

RS-232 is a precursor to USB and is used for many of the same devices, such as printers, as well as modems.

RS-232 is also commonly used for sophisticated machinery in laboratories, automated manufacturing plants, and other hi-tech environments.

100% Overall Foil Shield

### **Specifications/Contents:**

#### **Weight:**

100LBS	4LBS
300LBS	12LBS
500LBS	20 lbs

**Outer Diameter:** 6.0 mm

**without us, you are just not connected! ■**
