Water-Tight Hand-Held Enclosures **1553W Series**

IP 65 Protection, Soft Sides

Key Features:

- Ergonomically designed for hand-held comfort.
- Designed to meet IP65.
- Comes with pre-formed and pre-installed silicone gasket.
- Three sizes and two colors to choose from.
- Molded in flame retardant ABS plastic (FRABS) rated UL94 V-0 with a grey TPE overmold serving as a soft grip.
- Top cover is recessed for a membrane display or keypad.
- PC board standoffs are molded into both the top and bottom of the enclosure. Standoff screws (M2) not included. See **1553WTS100** for 100 pack of PCB screws.
- Front panel is integrated with top half of the enclosure.
- Enclosure is secured with black stainless steel machine screws threaded into brass bushings. Perfect for applications when repetitive assembly and disassembly are required.
- Replacement assembly screws for sizes "B" and "D", part number **SC1553WB100BK** (100-pack, black stainless steel).
- Replacement assembly screws for size "C", part number **SC1553WC100BK** (100-pack, black stainless steel).
- For similar enclosures designed for general purpose applications, including more size and color options, see series **1553**.
