

METRIC

MATERIAL

Cast iron, sandblasted matte finish.

CYLINDRICAL HANDLE

Black-oxide steel.

POSITIONING AND REST PIN

Hardened steel.

STANDARD EXECUTIONS

- **GN 558-B:** hub with H7 reamed hole.
- **GN 558-K:** hub with H7 reamed hole and keyway in compliance with DIN 6885/2 tolerance P9 (see page A-15).

FEATURES AND APPLICATIONS

GN 558 control levers are normally used for positioning shafts in pre-fixed positions.
The levers can also be supplied not assembled.

MATERIAL

Glass-fibre reinforced polyamide based (PA) technopolymer, black colour, matte finish. Balancing by means of an incorporated counterweight.

CENTRE CLOSING CAP

Technopolymer, black colour. On request and for sufficient quantities it can be supplied in other colours and customised with marks or words.

STANDARD EXECUTION

Black-oxide steel boss, H7 reamed hole.
Reamed hole provided with centres already drilled for pinning to shaft.
Revolving handle l.780+x (see page 664) in technopolymer.

FEATURES

Its surface with matte finish allows a sensible grip during operation, even in case of short approach controls. The revolving handle makes high-speed rotation easier.
