

MP7575N
ESD Safe Mouse Pad

Keep your computer work station free from static with our ESD mouse pad.

A commonly overlooked source of ESD generating plastic is mouse pads. With our ESD safe mouse pad, this threat can be removed. Most common mouse pads are made of vinyl which is an insulator and a significant static generator. The MP7575N mouse pad is made from ESD safe materials and does not generate a significant charge. The mouse pad is complete with a snap and ground cord which eliminates any static charges.

Features

- Made From ESD-Safe Materials
- Does Not Generate A Significant Static Charge
- Compliant for ESD Protected Areas
- Includes a Snap and Ground Cord

Specifications:

Material: Conductive Rubber
 Color: Black
 Size: 7.x 8.50inch

ESD Properties

Resistance: Less than 10¹¹

Part Numbers:

MP7575N ESD Mouse Pad

Parts Included—CS0123 ground snap, CC0039 ground cord

Applications:

Keep your computer work station free from static with our ESD mouse pad.
