Part Number: JWQ13V50

Description: Iron Test Strip (0-500 PPM) 50 strips for measuring aqueous Fe²⁺ (Ferrous) iron

Application: These test strips work in aqueous solutions and on metallic surfaces in various industries. This test strip can also determine if a metal is ferrous or non-ferrous. Dissolved iron is therefore an important indication of the level of corrosion.

Test Range: 0-500 PPM Fe²⁺

Test Increments: 0, 3, 10, 25, 50, 100, 250, 500 PPM Fe²⁺

Accuracy: +/- ½ color chart unit

Detection Limit: 1.5 PPM Fe²⁺

Storage Recommendations: Store in original packaging in a cool (20-30C), dry, place out of direct sunlight. Keep cap on when not in use.

Shelf-Life: Two years from date of manufacture when stored properly in original packaging.

Instructions for Use:

1. Immerse the test strip in the solution being tested for 1 second.
2. Shake off excess liquid.
3. Wait 10 seconds.
4. Compare the color change on the test pad with the color chart on the label.

Disclaimer: This chlorine test strip is not intended for use to diagnose, treat, or monitor any medical condition.
