

Made from galvanized steel, roller decks are designed to easily fit on top of Adam Equipment platforms. Unlike conventional rollers, when installed on bench and floor scale platforms, they allow parcels to be easily moved across them in two different orientations to accommodate front-to-back or side-to-side loading.

Roller decks work with a wide range of bench and floor scales, including ABK bench weighing scales, AFK floor weighing scales, BCT advanced label printing scales, BKT label printing scales, GBK bench checkweighing scales and GFK floor checkweighing scales.

**Easily move parcels in two different orientations for front-to-back or side-to-side loading**

## Features

- Available in three sizes: 11.8 x 15.7" (9 ball transfer units), 15.7 x 19.7" (12 ball transfer units) and 23.6 x 31.5" (20 ball transfer units)
- Robust galvanized steel construction stands up to rigorous industrial applications.
- The ball transfer units can roll in multiple directions, allowing objects to be moved in two different orientations: front-to-back or side-to-side.
- Easy installation.

## Compatible With

- ABK bench weighing scales
- AFK floor weighing scales
- AGB bench scales
- AGF floor scales
- BCT advanced label printing scales
- BKT label printing scales
- GBK bench checkweighing scales
- GFK floor checkweighing scales.

## Applications

- Logistics
- Sorting
- Shipping
- Loading and unloading

### About ADAM:

For more than 40 years, professionals worldwide have relied on Adam Equipment for an extensive selection of dependable and affordable weighing equipment. Adam provides the right balance of speed, performance and value.
