

# Replacement Lead Kit for TDR Cable Length Meter

The Klein Tools Replacement Lead Kit for TDR Cable Length Meter is comprised of 5 lead types for use with the TDR Cable Length Meter (Cat. No. 501-915). Designed to measure cable length, calibrate Velocity of Propagation (VoP) values, find distance to faults, with built-in tone generation for cable tracing (tracing probe Cat. No. VDV500-123 sold separately) for a wide variety of cable types.

## Specifications

|                      |   |                 |                           |
|----------------------|---|-----------------|---------------------------|
| Type:                | Cable Meter   | Application:    | Cable Length Measurement  |
| Special Features:    | Measures Cable Length   | Overall Length: | 5.12" (13 cm)             |
| Overall Height:      | 7.08" (18 cm)   | Overall Width:  | 0.5" (1.3 cm)             |
| Material:            | Brass   | Cable Type:     | Coaxial, Data, Electrical |
| Configuration End 1: | Male-BNC to Alligator Clips; Male-BNC to Female-F; Male-BNC to Male-F; RJ45 to RJ45; Male-BNC to Male-BNC | Weight:         | 3.2 oz (91 g)             |
