Detailed technical data

Features

Special applications	Standard
Device type	Standard
Dimensions (W x H x D)	30 mm x 53 mm x 78.5 mm
Sensing distance	≤ 25 mm
Sensing distance tolerance	± 6 mm
Housing design	Large
Light source	LED, RGB ¹⁾
Wave length	470 nm, 525 nm, 625 nm
Light emission	Long side of housing
Light spot size	5.3 mm x 1.2 mm
Light spot direction	Horizontal ²⁾
Receiving filters	None
Teach-in mode	1-point teach-in, 2-point teach-in, teach-in dynamic, auto mode
Output function	Light/dark switching
Delay time	Adjustable
Special features	-
Delivery status	2-point teach-in
Parameter presettings	None
Setting the key lock	Standard

 $^{1)}$ Average service life: 100,000 h at T_{U} = +25 °C.

 $^{2)}$ In relation to long side of housing.

Optics material COP	Optics material	COP

 $^{(1)}$ Limit values: DC 12 V (–10 %) ... DC 24 V (+20 %). Operation in short-circuit protected network max. 8 A.

 $^{2)}\,\text{May}$ not fall below or exceed U_{V} tolerances.

³⁾ Without load.

⁴⁾ With light/dark ratio 1:1.

⁵⁾ 1-point teach-in (color mode): 16 kHz.

⁶⁾ Signal transit time with resistive load.

 $^{7)}$ 1-point teach-in (color mode): 30 $\mu s.$

 $^{(8)}$ 1-point teach-in (color mode): 15 $\mu s.$

⁹⁾ Total current of all Outputs.

Ambient data

Ambient operating temperature	-20 °C +60 °C
Ambient temperature, storage	-25 °C +75 °C
Shock load	According to IEC 60068-2-27 (30 g/11 ms)
UL File No.	E181493

Dimensional drawing (Dimensions in mm (inch))

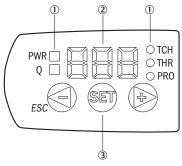

- ① Optical axis
- ② Threaded mounting hole M5
- ③ M12 male connector, delivery state
- ④ M12 male connector, end stop right
- M12 male connector, end stop left
- ⑥ Display and adjustment elements

Adjustments

Display and adjustment elements

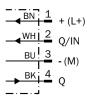

① LED status indicator

② Display

③ Navigation buttons

Connection diagram

Cd-381

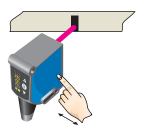

Concept of operation

KTS/KTX Prime - setting the switching threshold (2-point teach-in)

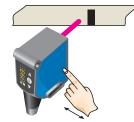

Suitable for manual positioning of the object to be detected, e.g. marks and background.

1. Position mark

2. Position background

When setting the contrasts to be detected, "1st" flashes. Press set button.

When setting the contrasts to be detected, "2nd" flashes. Press set button. The Quality of Teach is displayed.

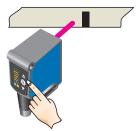

CONTRAST SENSORS

KTS/KTX Prime - Setting the switching threshold (teach-in dynamic)

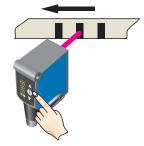

Suitable for teaching in moving objects.

1. Position background

2. Move at least the mark and background using the light spot

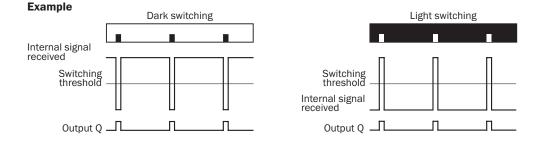

Press the Set pushbutton to start the teach-in process.

The display lights up during repeat length detection (---).

Press the Set pushbutton to end the teach-in process. The Quality of Teach is displayed.

Switching characteristics

The optimum emitted light is selected automatically (at RGB variants).

Static teach-in: light/dark setting is defined using teach-in sequence.

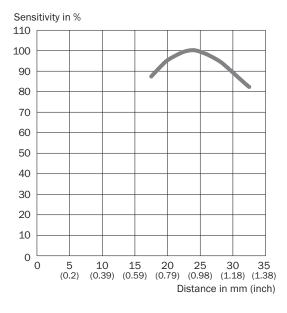

Dynamic teach-in: switching output active on mark, if background is longer in the field of view during the teach-in. The switching threshold is set in the center between the background and the mark.

Keylock (activation and deactivation): Press and hold the "+" pushbutton > 10 s.

The Q-LED (yellow) flashes and the "Err" error message appears on the display.

Sensing distance

Sensing distance 25 mm, light spot direction horizontal/vertical

	Brief description	Туре	Part no.	
Universal bar	Universal bar clamp systems			
	 Description: Plate G for universal clamp bracket Material: Steel Details: Steel, zinc coated Items supplied: Universal clamp (2022726), mounting hardware Usable for: W34, LUT3, KT5-2, KT10, CS8, W24-2, KT8, KT8 	BEF-KHS-G01	2022464	
Others				
٠.	 Connection type head A: Male connector, M12, 4-pin, straight, A-coded Description: Unshielded Connection systems: Screw-type terminals Permitted cross-section: ≤ 0.75 mm² 	STE-1204-G	6009932	
	 Connection type head A: Female connector, M12, 4-pin, straight, A-coded Connection type head B: Flying leads Signal type: Sensor/actuator cable Cable: 5 m, 4-wire, PVC Description: Sensor/actuator cable, unshielded Application: Zones with chemicals, Uncontaminated zones 	YF2A14- 050VB3XLEAX	2096235	

SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is "Sensor Intelligence."
