CyberPower

RELAYIO500 LOCAL MANAGEMENT CARD

*Offers users a solution for UPS status *monitoring* and local device control*

CyberPower's RELAYIO500 is a local management solution that provides users the ability to monitor UPS status and events via 5 contact closure outputs. Easy to install in any compatible CyberPower Smart App UPS with expansion slot.

Input contact closure allows the UPS to be shutdown remotely while on Battery Mode to preserver battery power in the event of a prolonged power outage.

A Three-Year Warranty ensures that this network management card has passed our highest quality standards in design, assembly, material and workmanship.
