

230V 650VA 375W Ultra-Compact Line-Interactive UPS - 4 Schuko Outlets, Desktop/Wall-Mount

MODEL NUMBER: AVRX650UD

Ultra-compact UPS offers power protection for desktop workstations and other essential home and office network components.

Features

650VA/375W/230V Battery Backup for Home and Office Workstations

The AVR Series line-interactive AVRX650UD UPS system with AVR provides reliable battery backup and AC power protection against blackouts, brownouts, overvoltages, surges and line noise that can damage valuable electronics or destroy data. The 230V battery backup is ideal protection for desktop workstations and other essential business and small-network office equipment. This UPS system is also recommended for home networking applications, such as Wi-Fi, security cameras and home theater components.

Reliable, Expandable Battery Backup Keeps You Operational Through Power Outages

Backup support allows you to work through short power failures and gives you enough time to safely save files and shut down your system in case of a prolonged blackout. Backup time varies according to load, but internal battery should keep a half load (188W) powered as long as six minutes.

4 Schuko CEE 7/7 Outlets Protect Your Connected Components

Four outlets provide battery backup, 156 joules of surge protection and voltage regulation for your crucial components.

Automatic Voltage Regulation (AVR) Corrects Low- and High-Voltage Conditions

AVR protects your equipment from incremental hardware damage, data loss and performance problems caused by brownouts and overvoltages. The AVRX650UD can correct brownouts as low as 159V and overvoltages as high as 282V back to nominal 230V power continuously, all while keeping the battery fully charged and ready to take over in case of power failure.

Premium Protection from EMI/RFI Line Noise Helps Your Equipment Perform Better

This UPS system filters out disruptive electromagnetic and radio frequency interference that can inflict hardware damage or data loss. This EMI/RFI filtering also helps your connected components perform better and last longer.

Designed for High Efficiency to Help You Save Money and Protect the Environment

A >95% efficiency rating reduces BTU emissions, energy consumption and, ultimately, your energy costs.

Audible Alarm and Status LED Keep You Informed Around the Clock

The alarm and LED report on/off status, battery mode operation, low-battery condition and UPS fault.

Highlights

- Protects equipment against blackouts, brownouts, transient surges and line noise
- Keeps AC power running during outages to allow time for file saves and safe shutdown
- Maintains continuous 230V nominal output during brownouts and overvoltages
- EMI/RFI filtering helps your connected components perform better and last longer
- Right-angle Schuko plug with 1.5 m cord allows easy connection in confined spaces

Applications

- Protect your small network server and other network components against power surges, line noise, brownouts, overvoltages and blackouts
- Shut down desktop PCs and other equipment without data loss during long-term power outages

Package Includes

- AVRX650UD 230V 650VA 375W Line-Interactive UPS with 4 Outlets
- Owner's manual

Versatile Installation Options Give You Plenty of Choices

The ultra-compact housing features mounting tabs on the bottom panel for installing the UPS system on any horizontal or vertical flat surface. The 1.5-meter power cord with space-saving right-angle Schuko CEE 7/7 input connects to a compatible AC outlet.
