Features

Medical-Grade Power Strip Approved for Hospitals, Clinics and Other Medical Facilities
The PS-415-HGUSB features four NEMA 5-15R-HG hospital-grade outlets that supply power to equipment used in areas outside patient care vicinities, including nursing stations, pharmacies, office and administration areas, and labs. This power strip has a NEMA 5-15P-HG "green dot" plug and meets UL 1363 standards.

Dual USB Ports Provide Charging Power
One USB-A port and one USB-C Power Delivery (PD) port let you charge smartphones, tablets and other vital mobile devices. The USB-C PD port provides up to 30W.

Protective Coating Helps Provide a Safer, Cleaner and Healthier Work Environment
The Safe-IT™ power strip is protected by an antimicrobial coating that helps resist the growth of bacteria, viruses, fungi, mold and mildew.

Premium Safety Features Help Ensure Proper Power Connections
With no central power switch, this power strip presents no danger of accidental shutoff and cutting off power to essential devices. Four locking plastic safety covers are included to block access to unused outlets.

Ready for Installation in Demanding Medical Environments
The 15-foot cord gives you some leeway in positioning the power strip away from a standard NEMA 5-15R wall outlet. Built-in mounting flanges let you mount the all-metal housing to a stable, flat surface.
