

# 100W PowerVerter Ultra-Compact Car Inverter with Outlet, 12V CLA Receptacle, and 2 USB Charging Ports

MODEL NUMBER: PV100USB

Charge and/or power multiple electronic devices—including smartphones, laptops, tablets, GPS units, DVD players, MP3 players, camping equipment and mobile office equipment—on the go in your car, truck, boat or RV.

#### Description

The PV100USB 100W PowerVerter® Ultra-Compact Car Inverter provides 100 watts of portable power for charging and operating multiple devices in your car, truck, boat or RV. It converts 12V DC power into standard 120V AC power to run a wide variety of electronics, such as smartphones, laptops, tablets, GPS units, game systems, portable TVs, DVD players and MP3 players, as well as low-power lights, camping accessories, battery rechargers for small battery-operated power tools and mobile office equipment. The PV100USB features an AC outlet, a 12V cigarette lighter socket, a 2.1A USB port and a 1.0A USB port. Just plug the DC input jack with convenient 3-ft. (0.91 m) cord into the 12V cigarette lighter socket in your vehicle, and the unit is ready to operate. Easy-to-read front LED lets you know the inverter is receiving power from the battery.

To prevent you from running down your car battery, the PV100USB turns off automatically when the input voltage falls to 10V. Likewise, the unit will also shut down if it gets too hot (for instance, because your connected devices exceed 100 watts). A built-in ventilation fan keeps the interior cool during extended use. The durable plastic housing is engineered to withstand the rigors of road trips, campouts, business trips and family vacations. No maintenance is required.
