

### **Important Note**

This is refreshed model, updated with 72v external battery. Extra runtime is available by connecting up to four optional extended battery modules <u>BP72VRM2U</u> (sold separately).

# SmartPro 1950VA 1950W 120V Line-Interactive Sine Wave UPS - 7 Outlets, Extended Run, Network Card Option, LCD, USB, DB9, ENERGY STAR V2.0, 2U Rack/Tower

# MODEL NUMBER: SMART2200RMXL2U

Provides complete battery backup and pure sine wave power output for servers, switches and other highend distributed IT equipment.

### **Features**

1.95kVA/1.95kW/120V Battery Backup for Distributed IT, Telecom or Enterprise Deployments
This rack-mount line-interactive UPS system provides reliable battery backup and AC power protection
against blackouts, brownouts, surges and line noise that can damage your IT equipment or destroy data.
The SMART2200RMXL2U is ideal power management for high-end in-rack networking equipment,
including servers, VoIP phones, data storage and PoE switches. Unity power factor ensures the most
watts possible at each power rating, so you can connect more equipment.

# Reliable, Expandable Battery Backup Keeps You Operational Through Power Outages

The field-replaceable, hot-swappable VRLA battery modules allow you to work through short power failures and give you enough time to safely save files and shut down your system in case of a prolonged blackout. Switchover from line to battery power happens within milliseconds to maintain continuous operation of connected equipment without interruption or rebooting. Extra runtime is available by connecting up to four optional extended battery modules (BP72VRM2U, sold separately).

## Optional LX Platform Network Management Card Allows Remote Access 24/7

The WEBCARDLXE network interface (sold separately) enables full remote configuration and management, including load shedding, reboots of connected equipment and safe shutdowns. The IP-based Auto Probe feature ensures continuous network uptime by communicating with other network devices, detecting lost connectivity and automatically rebooting IT equipment. Optional EnviroSense2 modules (E2MT, E2MTDO and E2MTHDI, all sold separately) provide a variety of environmental monitoring and control options.

### **NEMA Outlets Protect Your Connected Components**

One L5-20R and six 5-20R managed outlets provide connected equipment with pure sine wave AC output and allow you to monitor power consumption down to the outlet group level. Power provided by these

# **Highlights**

- Protects equipment against blackouts, brownouts, transient surges and line noise
- Keeps equipment running during outages to allow time for file saves and safe shutdown
- Unity power factor ensures maximum power possible at each power rating
- ENERGY STAR 2.0-certified to save electricity, lower costs and protect the environment
- 2-line front-panel LCD with 10 selectable screens reports detailed UPS and site power info
- For remote monitor and control, the WEBCARDLXE is required (sold separately). Not compatible with WEBCARDLX.

# **Package Includes**

- 1950VA 1950W 120V Line-Interactive UPS
- USB cable
- DB9 cable
- Rack-mounting hardware
- Tower support stands
- · Safety instructions
- Advanced User Guide

outlets is filtered to protect connected equipment against damaging surges and line noise. Four 5-20R outlets are split into two independently switchable load banks that let you shed non-critical loads to extend runtime for critical loads. Front and rear cooling fans help protect equipment from overheating.

### Automatic Voltage Regulation (AVR) Corrects Low- and High-Voltage Conditions

AVR protects your equipment from incremental hardware damage, data loss and performance problems caused by brownouts. The SMART2200RMXL2U maintains regulated 120V nominal output during brownouts and overvoltages from 80V to 151V while keeping the battery fully charged and ready to take over in case of power failure.

#### Premium Protection from EMI/RFI Line Noise Helps Your Equipment Perform Better

This UPS system filters out disruptive electromagnetic and radio frequency interference that can inflict hardware damage or data loss. This EMI/RFI filtering also helps your connected components perform better and last longer.

### **ENERGY STAR-Certified to Help You Save Money and Protect the Environment**

By meeting strict U.S. Department of Energy and U.S. Environmental Protection Agency requirements, this ENERGY STAR 2.0 UPS system provides high operational efficiency to signal a reduction in BTU emissions, save on utility and cooling costs and help protect the environment.

### Intuitive Front-Panel Interface for Convenient UPS Operation and Monitoring

The two-line front-panel LCD monitoring screen features ten selectable screens that allow quick access to a wide range of detailed UPS and site power information. LEDs show UPS status: a green light means utility power is on, an orange light means the UPS is in battery mode and a red light indicates an active alarm or fault. The control panel rotates to accommodate both rack-mount and tower configurations.

### **Advanced Communications Ports Allow for Automatic Saves and Shutdowns**

RS-232 and USB ports connect to a device for a variety of communication options (cables are included). A dry-contact relay port can be programmed through the LCD to provide reliable communications to automation and industrial components. The RPO/ROO port permits emergency shutdown or remote restart of all connected equipment.

## **Versatile Installation Options**

You can mount the SMART2200RMXL2U in just 2U of space in an EIA-standard 19-inch rack using the included hardware. At 23.7 inches deep, the UPS mounts in short-depth racks and other compact spaces. You can also adapt it for tower installation using the included support stands. The 10-foot power cord with NEMA 5-20P plug connects to a compatible AC outlet.

# **Specifications**

OVERVIEW		
UPC Code	037332118059	
UPS Type	Line-Interactive	
INPUT		
Input Phase	Single-Phase	
Rated input current (Maximum Load)	16.0A	
Nominal Input Voltage(s) Supported	120V AC	
UPS Input Connection Type	5-20P	
UPS Input Cord Length (ft.)	10	
UPS Input Cord Length (m)	3.1	
Recommended Electrical Service	20A 120V	

Maximum Input Amps	16	
OUTPUT		
Output Capacity (VA)	1950	
Output Capacity (kVA)	1.95	
Output Capacity (Watts)	1950	
Output Capacity (kW)	1.95	
Power Factor	1	
Nominal Voltage Details	120v nominal output in battery mode	
Frequency Compatibility	50 / 60 Hz	
Output Voltage Regulation (Line Mode)	120V (-13%, +15%)	
Output Voltage Regulation (Battery Mode)	-10%, +6%	
Load Management Receptacles	Two switched single outlet load banks (2x 5-20R and 2x 5-20R )	
Output AC Waveform (AC Mode)	Pure Sine wave	
Output AC Waveform (Battery Mode)	Pure Sine wave	
Nominal Output Voltage(s) Supported	100V; 110V; 120V; 125V	
Output Receptacles	(6) 5-20R; (1) L5-20R	
Individually Controllable Load Banks	Yes	
BATTERY		
Battery Type	Valve Regulated Lead Acid (VRLA)	
Runtime Full Load (min.)	4 min. (1950W)	
Runtime Half Load (min.)	12 min. (975W)	
Expandable Runtime	Yes	
Expandable Battery Runtime	Extended runtime supported via optional 72V DC <a class="productLink" href="//tripplite.eaton.com/Eaton-Tripp-Lite-series-72V-Battery-for-SmartPro-UPS-Systems-2U~BP72VRM2U">BP72VRM2U</a> external battery packs.
