

SmartPro 230V 2.2kVA 1.6kW Line-Interactive UPS, Tower, Network Card Options, USB, DB9 Serial

MODEL NUMBER: SMARTINT2200VS

Description

The SMARTINT2200VS intelligent line-interactive tower uninterruptible power supply (UPS) prevents data loss, downtime and equipment damage due to power outages, voltage fluctuations and transient surges. Large internal batteries offer 19 minutes half load runtime and seven minutes at full load. Maintains regulated 230V nominal output without using battery power during brownouts and overvoltages from 151 to 282V. 2200VA power handling capability offers compatibility with a variety of networking, telecom and other sensitive electronic applications. Includes a total of nine outlets with three load banks (two outlets each) that are individually switchable via software interface to reboot select equipment on demand or shed less significant loads to extend battery runtime for more critical equipment. Supports simultaneous remote monitoring of UPS and site power conditions via built-in USB and DB9 monitoring ports. PowerAlert® UPS monitoring software is available via free download. Built-in accessory slot supports Network Management Card options. Emergency Power Off (EPO) interface offers option for instantaneous power-off of UPS and connected equipment in the case of fire or emergency. Multi-function audible alarms and set of five front-panel LEDs offer at-a-glance notification of UPS and line power status. Network-grade AC surge suppression protects equipment from damage and performance problems resulting from transient surges and line noise. Attractive gray color scheme.

Features

- SMARTINT2200VS line interactive UPS offers protection from blackouts, brownouts, overvoltages and surges
- 2200VA/1600W capacity
- Internal batteries support a half load of 1100VA for 19 minutes and a full load of 2200VA for 7 minutes
- Intelligent battery management system extends battery life
- Maintains regulated 230V nominal output during brownouts and overvoltages from 151 to 282V
- Includes 9 UPS supported outlets with 3 individually controllable load banks that can be powered off and back on again via software interface
- IEC320-C20 input connection accepts a variety of detachable cordsets to match country or site-specific wall receptacles
- Optional WEBCARDLX (sold separately) with the latest version of PowerAlert Device Manager firmware (PADM20) provides enhanced remote management capabilities
- PADM20 and PowerAlert Element Manager (PAEM) form a powerful tool for expanding maintenance functions in large installations, including firmware update checks and backup and restoration of device configurations

Highlights

- 2.2kVA / 2200VA line interactive tower UPS system
- 230V nominal output during brownouts to 151 and overvoltages to 282V
- Front panel status LEDs with load and battery capacity level display
- USB, RS232, EPO and slot for Network Management Card options; 3 switched load banks
- C20 inlet; 8 C13 and 1 C19 outlets; 3 C13 to C14 cables included
- Add optional WEBCARDLX with latest version of PADM20 for IPbased Auto Probe feature

Package Includes

- SMARTINT2200VS UPS System
- USB and DB9 cables
- Cable for Emergency Power Off interface
- Instruction manual with warranty information
- C13 to C14 power cables (3)

- IP-based Auto Probe detects lost connectivity and restores service autonomously
- USB & Serial ports enable data-saving unattended shutdown when used with PowerAlert software, available via FREE download from tripplite.eaton.com/products/power-alert
- Supports timed inverter shutoff after unattended shutdown, activate self-test and UPS output power control for immediate reboot of connected devices
- Supports WatchDog software application (requires optional WATCHDOGSW)
- Built-in accessory slot supports Network Management Card options; Compatible with UPS management card options TLNETCARD, WEBCARDLX and SNMPWEBCARD
- Emergency Power Off (EPO) interface with cable
- Multi-function audible alarms and set of 5 front panel LEDs
- Network-grade AC surge suppression
- Attractive gray color scheme
- Optional PDUBHV20 bypass PDU enables hot-swappable UPS replacement with no disruption to connected equipment
