

Use optional WEBCARDLXE web card Not compatible with WEBCARDLX

SmartOnline 1000VA 900W 120V Double-Conversion Sine Wave UPS - 8 Outlets, Extended Run, Network Card Option, LCD, USB, DB9, 2U Rack/Tower

MODEL NUMBER: SU1000RTXLCD2U

Provides battery backup, power protection and sine wave output for mission-critical IT installations, edge networks and other advanced network applications.

Features

1kVA 900W 120V Battery Backup Protects Equipment against Damage, Downtime and Data Loss This on-line double-conversion UPS system maintains perfect output by converting AC input to DC, then reconverting UPS output to fully regulated sine wave AC. Constant on-line operation completely isolates sensitive equipment from every power problem on the AC line. The SmartOnline® SU1000RTXLCD2U provides the highest level of power protection and battery backup for education, healthcare, military, government and other mission-critical IT applications where space is limited, but premium power reliability is essential.

Reliable, Expandable Battery Backup Keeps You Operational Through Power Outages

The field-replaceable, hot-swappable battery modules allow you to work through short power failures and give you enough time to safely save files and shut down your system in case of a prolonged blackout. Zero transfer time between on-line and battery modes maintains continuous operation of connected equipment without interruption or rebooting. Extra runtime is available by connecting up to four optional extended battery modules (BP36RT, sold separately).

Optional LX Platform Network Management Card Allows Remote Access 24/7

The WEBCARDLXE network interface (sold separately) enables full remote configuration and management, including load shedding, reboots of connected equipment and safe shutdowns. The IP-based Auto Probe feature ensures continuous network uptime by communicating with other network devices, detecting lost connectivity and automatically rebooting IT equipment. Optional EnviroSense2 modules (E2MT, E2MTDO and E2MTHDI, all sold separately) provide a variety of environmental monitoring and control options.

NEMA 5-15R Outlets Protect Your Connected Components

Eight managed 5-15R outlets provide connected equipment with pure sine wave AC output and allow you to manage power consumption down to the outlet group level. Power provided by these outlets is filtered to protect connected equipment against damaging surges and line noise. Four outlets are grouped into two programmable load banks that let you shed non-critical loads to extend runtime for critical loads. A cooling fan helps protect equipment from overheating.

Highlights

- Updated design for 2023
- Offers network-grade protection against power failures and voltage fluctuations
- Zero transfer time between online and battery modes for uninterrupted operation
- Keeps equipment running during outages to allow time for file saves and safe shutdown
- Optional WEBCARDLXE network card enables full remote access and control
- 2-line front-panel LCD with 10 selectable screens reports detailed UPS and site power info

Package Includes

- 1000VA 900W 120V Double-Conversion UPS
- USB cable
- DB9 cable
- · Rack-mounting hardware
- Tower support stands
- · Safety instructions
- Quick start guide

Premium Protection from EMI/RFI Line Noise Helps Your Equipment Perform Better

This UPS system filters out disruptive electromagnetic and radio frequency interference that can inflict hardware damage or data loss. This EMI/RFI filtering also helps your connected components perform better and last longer.

Intuitive Front-Panel Interface for Convenient UPS Operation and Monitoring

The two-line front-panel LCD monitoring screen features 10 selectable screens that allow quick access to a wide range of detailed UPS and site power information. LEDs show UPS status: a green light means utility power is on, an orange light means the UPS is in battery or bypass mode and a red light indicates an active alarm or fault. The control panel rotates to accommodate both rack-mount and tower configurations.

Advanced Communications Ports Allow for Automatic Saves and Shutdowns

RS-232 and USB ports connect to a device for a variety of communication options (cables are included). A dry-contact relay port can be programmed through the LCD to provide reliable communications to automation and industrial components. The RPO/ROO port permits emergency shutdown or remote restart of all connected equipment. Automatically Turns Back On After Power Is Restored Battery-independent restart ensures automatic UPS power-up without user interaction after lengthy power outages, even after a complete battery discharge.

Versatile Installation Options

Hardware is included for mounting the UPS system in 2U of space in an EIA-standard 19-inch 4-post rack. You can also adapt it for tower installation using the included support stands. The eight-foot power cord with NEMA 5-15P plug connects to any compatible AC outlet.

Specifications

_		
OVERVIEW		
UPC Code	037332164261	
UPS Type	On-Line	
INPUT		
Input Phase	Single-Phase	
Rated input current (Maximum Load)	10A	
Nominal Input Voltage(s) Supported	100V AC; 110V AC; 120V AC	
Nominal Input Voltage Description	120V factory default	
UPS Input Connection Type	5-15P	
UPS Input Cord Length (ft.)	8	
UPS Input Cord Length (m)	2.4	
Recommended Electrical Service	120V	
Maximum Input Amps	10	
Input Plug Type	NEMA 5-15P	
Input Current	10A	
Power Factor (Input)	0.99	
OUTPUT		
Output Capacity (VA)	1000	

Output Capacity (kVA)	1	
Output Capacity (Watts)	900	
Output Capacity (kW)	0.9	
Power Factor	0.9	
Crest Factor	3:1	
Nominal Voltage Details	120V factory-default nominal voltage	
Frequency Compatibility	50 / 60 Hz	
Frequency Compatibility Details	Online Mode: Sync with line ±5% of nominal line frequency (outside this range: ±0.5% of auto-selected nominal frequency). Battery Mode: ±0.5% of auto-selected nominal frequency	
Output Voltage Regulation (Line Mode)	+/- 1%	
Output Voltage Regulation (Economy Line Mode)	+/- 1%	
Output Voltage Regulation (Battery Mode)	+/- 2%	
Load Management Receptacles	Two switchable two-outlet load banks	
Output AC Waveform (AC Mode)	Pure Sine wave	
Output AC Waveform (Battery Mode)	Pure Sine wave	
Nominal Output Voltage(s) Supported	100V; 110V; 115V; 120V; 127V	
Output Receptacles	(8) 5-15R	
Individually Controllable Load Banks	Yes	
BATTERY		
Battery Type	Valve Regulated Lead Acid (VRLA)	
Runtime Full Load (min.)	6.3 min. (900W)	
Runtime Half Load (min.)	18.2 min. (450W)	
Expandable Runtime	Yes	
Expandable Runtime Description	Add up to 4 extended battery modules (EBM). Part number BP36RT *Note: BP36RT is compatible only with the SU1000RTXLCD2U 2023 UPS design update featured on this page. For previous SU1000RTXLCD2U design battery pack functionality, please see the Legacy Product Datasheet under the Support tab, Documents & Downloads section.	
External Battery Pack Compatibility	BP36RT	
DC System Voltage (VDC)	36	
Battery Recharge Rate (Included Batteries)	3 hours recharge to 90%	
Battery Access	Battery access door	

Internal UPS Replacement Battery Cartridge	744-A3960 *Note: 744-A3960">744-A3960 is the replacement-battery-for-eaton-9px1000rt-9px700rt-ups~744-A3960">744-A3960 744-A3960 744-A3960 744-A3960 744-A3960 744-A3960 744-A3960 144-A3960 144-A3960 144-A3960 RK2PC)
Minimum Required Rack Depth (cm)	52.58
