

**SERIES:** PSK-150 | **DESCRIPTION:** INTERNAL AC-DC POWER SUPPLY**FEATURES**

- EN 60601 3.1 certified
- 4,000 Vac isolation
- 2 MOPP
- adjustable output voltage
- power factor > 90%
- Class I or Class II

| MODEL      | output<br>voltage | output<br>current<br>max | output<br>power<br>max | ripple<br>and noise <sup>1</sup><br>max | efficiency <sup>2</sup> |
|------------|-------------------|--------------------------|------------------------|-----------------------------------------|-------------------------|
|            | (Vdc)             | (A)                      | (W)                    | (mVp-p)                                 | typ<br>(%)              |
| PSK-150-12 | 12                | 12.50                    | 150                    | 120                                     | 93.0                    |
| PSK-150-24 | 24                | 6.25                     | 150                    | 240                                     | 93.5                    |
| PSK-150-48 | 48                | 3.12                     | 150                    | 480                                     | 93.5                    |

Note: 1. Ripple and noise are measured at 20 MHz BW with 47 uF aluminum electrolytic capacitor and 0.1 uF ceramic capacitor on the output.  
2. At 230 Vac after 30 minutes of operation.

**PART NUMBER KEY**

## INPUT

| parameter                 | conditions/description   | min | typ | max         | units  |
|---------------------------|--------------------------|-----|-----|-------------|--------|
| voltage                   | (see derating curve)     | 90  |     | 264         | Vac    |
| frequency                 |                          | 47  |     | 63          | Hz     |
