

PWM Fan Hub 4-Pin Sleeved Power Splitter Adapter 1 to 5 PWM-4P5FHUB

PWM Fan Hub 4-Pin Sleeved Power Splitter Adapter 1 to 5

Function:

- This splitter cable allows you to connect up to five 4-pin PWM (Pulse Width Modulation) fans to a single motherboard header.
- It's particularly useful when you want to control and power multiple fans from a single source.

Compatibility:

- The cable has **one 4-pin female connector** (which plugs into the motherboard) and **four 4-pin male connectors** (for connecting fans).
- It supports both **4-pin** and **3-pin** fans, making it versatile for various fan types.

Benefits:

- **Easy Installation:** Plug-and-play design allows you to connect fans effortlessly.
- **Flexibility:** Provides greater flexibility between the motherboard and CPU cooling fans.
- **Clean Look:** The black sleeved nylon braided cable keeps the inside of your PC case tidy.

Specifications:

- **Length:** Approximately **15.7 inches** (40 cm).
- **Material:** Durable nylon braided cable.
- **Voltage:** Compatible with **12V** fans.
- **Noise Level:** Minimal noise (15 dB).
