

180 Degree SATA 7-Pin Male to Female Connector G08-180S7P

- You can use this 180 degree SATA adapter to install the 7-Pin power cable from vertical to horizontal to solve the problem of horizontal SATA interface, when the case is compact and cannot be inserted into the SATA cable.
- Solve the problem that the flat mouth of the vertical SATA interface faces inward, and the elbow SATA cable cannot be used, resulting in messy wiring.
- The latest SATA Revision 3.0 allows data transfer speeds of up to 6 Gbps, 2x faster than SATA II, and is backward compatible with SATA I and SATA II.
- This right angle SATA adapter is a cost-effective way to provide replacement or spares for different SATA systems or RAID configurations.
- Make sure to check your case to see which way you need the SATA adapter to be angled.

Connector A: SATA 7-Pin Female

Connector B: SATA 7-Pin Male

Color: Black

Connector Pin: Gold Plated

Latest SATA Revision 3.0 up to 6 Gbps, backwards compatible with SATA 1.0, 2.0 Ports.

(Note that data transfers from the SATA subsystem will be limited to the slowest device.)

without us, you are just not connected! ■
