

180 Degree Dual SATA 7-Pin Male to Dual Female Adapter G08-180S7PD-2 (2-Pack)

6-Gbps Transmission Speed
3.0 SATA is backward compatible with SATA 2.0/1.0

**180 Degree Dual SATA 7-Pin Male to Dual Female Connector for Low Profile Motherboard
Desktops Computer SSD HDD**

- You can use this 180 angle dual SATA adapter to install the SATA 7-pin power cable from vertical to horizontal to solve the problem that the SATA cable is bent too much due to the lack of space in the computer case.
- The 180-degree angle is designed to ensure better cable management in certain situations, especially in tight spaces.
- Ultra-fast SATA III speeds of up to 6-Gbps provide super performance for custom gaming or RAID configurations, backwards compatible with SATA 1.0, 2.0 Ports.
- This right angle SATA adapter is a cost-effective way to provide replacement or spares for different SATA systems or RAID configurations.
- Make sure to check your case to see which way you need the SATA adapter to be angled.
- Bottom insulating EVA foam to prevent short circuits.
- Plug in and Play, no any software installation required.
- The RIGHT-ANGLE connector is an indispensable tool for fixing hard-to-reach connections in enclosures.
