Description

Pasternack's M39012/25-0012 connector dust cap has a N interface and a male gender. Our N male dust cap is a non-shorting design with a silver plated body to ensure durability. The Pasternack non-shorting N connector cap is part of over 40,000 RF, microwave and millimeter wave products that ship the same day.

RF connector dust caps are essential for precision connectors, protecting them from dust, corrosion and potential damage especially to test and measurement equipment. Specific RF connector cap models come with a chain to prevent loss or misplacement. Internal short connector cap versions are available to protect equipment from a spike in current caused by electrostatic discharge (ESD).
