

Hermetically Sealed N Female to SMA Female Bulkhead Mount Adapter, 11GHz VSWR1.35, MIL-STD 348B

RF Adapters Technical Data Sheet

PE1350

Configuration

- N Female Connector 1
- SMA Female Connector 2
- •50 Ohm

Straight Body Geometry

· Bulkhead Mount Method

Features

- Max VSWR of 1.35:1 up to 11 GHz
- · Hermetically Sealed

• Gold Plated Beryllium Copper Contact

Applications

- Allows Connection Between Series
- General Purpose Test
- Vacuum Test Environment
- Rack Mounted Equipment

Description

Pasternack's PE1350 hermetically sealed type N female to SMA female bulkhead adapter is part of our full line of RF components available for same-day shipping. Our type N to SMA adapter has a female to female gender configuration. PE1350 type N female to SMA female adapter operates to 11 GHz. The Pasternack RF adapter provides good VSWR of 1.35:1 maximum. This RF type N to SMA bulkhead adapter allows designers to create external connections on their product enclosures, and can be used in a variety of other rack mount and panel mount applications. This hermetic type N to SMA adapter prevents the leakage of gases, making it suitable for high pressure or vacuum applications or whenever an airtight seal is required.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Pasternack also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Electrical Specifications

Description	Minimum	Typical	Maximum	Units
Frequency Range	DC		11	GHz
VSWR			1.35:1	
Insertion Loss			0.16	dB
Operating Voltage (AC)			500	Vrms
Dielectric Withstanding Voltage (AC)			1,500	Vrms
Insulation Resistance	5,000			MOhms

Mechanical Specifications

Size

Length 1.25 in [31.75 mm]
