

SMPS VITA 67.3 19 Port Backplane Module C

RF Connectors Technical Data Sheet

PE49833

Configuration

- SMPS Connector
- 50 Ohms
- Straight Body Geometry
- VITA 67.3 Design

Features

- Rugged Aluminum construction
- Accepts 0.047" cable contact for end-to-end solution

Applications

- General Purpose Test
- VITA 67.3 Backplane
- High Density Applications
- Robust and rugged high speed cabled solution

Description

Pasternack's PE49833 19-position block housing is part of our full line of VITA 67.3 Backplane solutions and is available for same-day shipping. These blocks are machined for a rugged solution. The blocks are designed to accept PE49829 (.047" cable contact) in flexible or semi-rigid cables. These blocks are ideal for blind mating daughtercards to motherboards as the RF contacts provide +/- .010" radial misalignment tolerance and have excellent return loss up to 40 GHz.

The SMPS blind mate connector is ideal for applications where direct visual or tactile access to the connection point is not possible, for example, when two circuit boards need to be mated.

Our SMPS block PE49833 specifications and drawing with dimensions are shown below in this PDF. Pasternack's broad catalog of RF, microwave and millimeter wave connectors allows designers to configure and customize their signal connections however they like. Whether the need is to provide an I/O for a board design, or simply create a custom cable assembly configuration, Pasternack has the right connector for the job. Pasternack can also expertly build your custom cable assemblies for you and ship same-day.

Impedance	50	Ohms
-----------	----	------

Mechanical Specifications

Size	
Length	0.96 in [24.38 mm]
Width	1.12 in [28.45 mm]
Height	0.50 in [12.70 mm]
Weight	0.08 lbs [38.51 g]
Mating Cycles	500 Cycles

Material Specifications

Description	Material	Plating
Body	Aluminum	Chem Film

Environmental Specifications

Temperature	
Operating Range	-65 to +165 deg C
