

1.0mm Male to 1.0mm Female Adapter, Engineering Grade

PE910019

Configuration

- 1.0mm Male Connector 1
- 1.0mm Female Connector 2
- 50 Ohms Impedance
- Engineering Grade Design
- Straight Body Geometry

Features

- Gold Plated Beryllium Copper Contact

Applications

- General Purpose Test

Description

Pasternack's PE910019 1.0mm male to 1.0mm female adapter is part of our full line of RF components available for same-day shipping. Our 1.0mm to 1.0mm adapter has a male to female gender configuration built of durable stainless steel in a engineering grade design. PE910019 1.0mm male to 1.0mm female adapter operates to 110 GHz.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Pasternack also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.
