

UHF Female to UHF Female Bulkhead Adapter

RF Adapters Technical Data Sheet

PE9114

Configuration

- UHF Female Connector 1
- UHF Female Connector 2
- 50 Ohms
- Straight Body Geometry
- Bulkhead Mount Method

Features

- Gold Plated Brass Contact
- 30 µ-in min Gold Contact Plating

Applications

- General Purpose Test
- Rack Mounted Equipment

Description

Pasternack's PE9114 UHF female to UHF female bulkhead adapter is part of our full line of RF components available for same-day shipping. Our UHF to UHF adapter has a female to female gender configuration. PE9114 UHF female to UHF female adapter operates to 300 MHz. This RF UHF to UHF bulkhead adapter allows designers to create external connections on their product enclosures, and can be used in a variety of other rack mount and panel mount applications.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Pasternack also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Electrical Specifications

Description	Minimum	Typical	Maximum	Units
Frequency Range	DC		300	MHz
Operating Voltage (AC)			750	Vrms
Dielectric Withstanding Voltage (AC)			2,000	Vrms

Electrical Specification Notes:
Values at 25°C, sea level.

Mechanical Specifications

Size

Length	1.99 in [50.55 mm]
Width	0.625 in [15.88 mm]
Weight	0.11 lbs [49.9 g]
