

Bulkhead Mount Hermetically Sealed MHV Female to MHV Female Adapter

PE9268

Configuration

- MHV Female Connector 1
- MHV Female Connector 2
- 50 Ohms Impedance

Features

- · Hermetically Sealed
- MHV interface compliant with MIL-STD-348

Applications

- · General Purpose Test
- Vacuum Test Environment

Description

Bulkhead Mount Method

Straight Body Geometry

- · Contact plating according to QQ-S-365
- Silver Plated Beryllium Copper Contact
- Rack Mounted Equipment

Pasternack's PE9268 bulkhead hermetically sealed MHV female to MHV female adapter is part of our full line of RF components available for same-day shipping. Our MHV to MHV adapter has a female to female gender configuration. PE9268 MHV female to MHV female adapter operates to 50 MHz. This RF MHV bulkhead to MHV adapter allows designers to create external connections on their product enclosures, and can be used in a variety of other rack mount and panel mount applications. This hermetic MHV to MHV adapter prevents the leakage of gases, making it suitable for high pressure or vacuum applications or whenever an airtight seal is required.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Pasternack also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.
