

MHV Male to SHV Jack Adapter

RF Adapters Technical Data Sheet

PE9335

Configuration

- MHV Male Connector 1
- SHV Jack Connector 2
- 50 Ohms
- Straight Body Geometry

Features

- MHV Interface compliant with MIL-STD-348
- SHV Interface compliant with MIL-STD-348
- Silver Plated Contact
- Contact Plating per QQ-S-365

Applications

- Allows Connection Between Series
- General Purpose Test

Description

Pasternack's PE9335 MHV male to SHV jack adapter is part of our full line of RF components available for same-day shipping. Our MHV to SHV adapter has a male to jack gender configuration.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Pasternack also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

Mechanical Specifications

Size

Length	1.65 in [41.91 mm]
Width	0.57 in [14.48 mm]
Weight	0.008 lbs [3.63 g]

Description	Connector 1	Connector 2
Type	MHV Male	SHV Jack
Polarity	Standard	Standard
Interface Specification	MIL-STD-348	MIL-STD-348
