

## Precision N Female to N Female 4 Hole Flange Adapter

### RF Adapters Technical Data Sheet

PE9429

#### Configuration

- N Female Connector 1
- N Female Connector 2
- 50 Ohms
- Precision Design
- Straight Body Geometry
- 4 Hole Flange Mount Method

#### Features

- Max VSWR of 1.15:1 up to 18 GHz
- N Interface compliant with MIL-C-39012
- Gold Plated Beryllium Copper Contact

#### Applications

- General Purpose Test
- Rack Mounted Equipment
- Precision Test & Measurement

#### Description

Pasternack's PE9429 precision type N female to type N female 4 hole flange adapter is part of our full line of RF components available for same-day shipping. Our type N to type N adapter has a female to female gender configuration in a precision design. PE9429 type N female to type N female adapter operates to 18 GHz. The Pasternack RF adapter provides excellent VSWR of 1.15:1 maximum. This RF type N to type N 4 hole flange adapter allows designers to create external connections on their product enclosures, and can be used in a variety of other rack mount and panel mount applications.

RF adapters are often used to enable connections between two connector types that would otherwise not mate. Certain adapter configurations can also be used to protect connectors on expensive equipment where the number of connect/disconnect cycles is high. An RF, microwave or millimeter wave adapter is connected to the equipment, and the commonly changed connection is made with the adapter which can be easily replaced when it wears out after high usage; such adapters are referred to as connector savers. Pasternack also offers bulkhead, panel mount, hermetically sealed, reverse polarity, and isolated ground adapter varieties to serve all of your RF, microwave and millimeter wave needs.

#### Electrical Specifications

Description	Minimum	Typical	Maximum	Units
Frequency Range	DC		18	GHz
VSWR			1.15:1	

#### Mechanical Specifications

Size	
Length	1.7 in [43.18 mm]
Width	1 in [25.4 mm]
Height	1 in [25.4 mm]
Weight	0.122 lbs [55.34 g]
