Relays & Contactors > Electromechanical Relays

Relay & Contactor Type: Protective Relay

Current Type: **DC**

Contact Arrangement: 2 Form C DPDT-CO

Contact Current Rating: 5A

Main Termination & Connection Type: Screw Terminals

Features

2 Form C DPDT-CO

Electrical Characteristics

Input Voltage	13.5 – 32 VDC	
Contact Current Rating	5 A	
Signal Characteristics		
Frequency Adjustment	50 – 60 Hz	
Termination Features		
Main Termination & Connection Type	Screw Terminals	
Coil Termination & Connection Type	Screw Terminals	
Mechanical Attachment		
Product Mounting Feature Type	Mounting Hole, Snap-On	
Product Mount Type	DIN Rail	
Dimensions		
Product Width	73 mm[2.87 in]	
Product Length	75 mm[2.95 in]	

WD25-002

Protective Relay, DC, 2 Form C DPDT-CO, 5 A Contact Rating, DIN Rail, 60 °C [140 ° F], Kilovac WD

Product Height	112 mm[4.41 in]	
Isage Conditions		
Operating Temperature Range	-40 - 60 °C[-40 - 140 °F]	
Environmental Ambient Temperature (Max)	60 °C[140 °F]	
Operation/Application		
Protection Function	Paralleling, Double Dead Bus	
Current Type	DC

Product Compliance Disclaimer

This information is provided based on reasonable inquiry of our suppliers and represents our current actual knowledge based on the information they provided. This information is subject to change. The part numbers that TE has identified as EU RoHS compliant have a maximum concentration of 0.1% by weight in homogenous materials for lead, hexavalent chromium, mercury, PBB, PBDE, DBP, BBP, DEHP, DIBP, and 0.01% for cadmium, or qualify for an exemption to these limits as defined in the Annexes of Directive 2011/65/EU (RoHS2). Finished electrical and electronic equipment products will be CE marked as required by Directive 2011/65/EU. Components may not be CE marked.Additionally, the part numbers that TE has identified as EU ELV compliant have a maximum concentration of 0.1% by weight in homogenous materials for lead, hexavalent chromium, and mercury, and 0.01% for cadmium, or qualify for an exemption to these limits as defined in the Annexes of Directive 2000/53/EC (ELV). Regarding the REACH Regulations, TE's information on SVHC in articles for this part number is still based on the European Chemical Agency (ECHA) 'Guidance on requirements for substances in articles' (Version: 2, April 2011), applying the 0.1% weight on weight concentration threshold at the finished product level. TE is aware of the European Court of Justice ruling of September 10th, 2015 also known as O5A (Once An Article Always An Article) stating that, in case of 'complex object', the threshold for a SVHC must be applied to both the product as a whole and simultaneously to each of the articles forming part of its composition. TE has evaluated this ruling based on the new ECHA "Guidance on requirements for substances in articles" (June 2017, version 4.0) and will be updating its statements accordingly.
